

## KEY VOCABULARY

Sun, temperature,  
 Seasons, weather,  
 Spring, Summer,  
 Autumn, Winter,  
 sunrise, sunset, day  
 length

## DIAGRAM

## KEY KNOWLEDGE

There are 4 seasons in a year –  
 Spring, Summer, Autumn and  
 Winter.

Four Seasons are formed in one  
 year due to the Earth travelling  
 around the Sun.

In Spring the weather usually turns  
 warmer, trees begin to grow their  
 leaves, plants start to flower and  
 young animals such as chicks and  
 lambs are born.

In the U.K, Summer has the longest  
 days and the highest temperatures.

Autumn is the time when deciduous  
 trees shed their leaves.

In the U.K, Winter is the season  
 with the shortest days and the  
 lowest temperatures.

## THINGS TO TALK ABOUT AT HOME

- What season is it today? What can we notice?
  - Seasons song on Youtube
- Keep a weather diary together
  - Create a rain gauge for the garden
- Go on an outdoor walk and see what you can see/find

## Timeline of events/maps/scientist
