Thur & Fri

YEAR 6

OVERVIEW

Subject	Autumn	Spring	Summer
Maths	<p>Maths pupils build upon the firm foundations made and embed and develop their calculation strategies. They calculate with fractions, decimals and percentages. Pupils identify factors, multiples, square and prime numbers. In addition, they consolidate their long multiplication strategies and they are taught long division. Through regular practice they become fluent and confident arithmetic experts. Maths lessons provide children with opportunities to develop their logical and critical thinking skills whilst answering reasoning questions across a range of topics such as: shape, measure, algebra, ratio and data. Pupils will be supported to develop their problem-solving skills whilst searching for patterns and relationships and when solving open investigations.</p>		
Science	Animals including humans: circulatory system	Evolution and Inheritance	Electricity Light

Black joggers

White t-shirt

Black hoodie

Black sweater

Appropriate shoes

P.E KIT

Not allowed:

Branded kit **X**

Coloured clothing **X**

Leggings **X**

EXTRACURRICULAR CLUBS

Armley Park
Primary School

TRIPS AND VISITS

Armley Park
Primary School

SAT's

Monday 12th May - Thursday 15th May

Armley Park
Primary School

YEAR 6 RESIDENTIAL

MARCH 19TH - 21ST

robin **vv** **vv** **ood**
Activity Centres

Armley Park
Primary School

PTA

Throughout the year we run events to raise money for the school. We rely on your support during these and we put use the money to provide extra experiences for children at school. If you are interesting in volunteering and helping at any upcoming events please speak to Miss Wright at the end of the session.

PARENT GOVERNOR

We currently have vacancies for parental governors. The role of a governor is really important as it allows you insight into the workings of the school. You can support the school by giving us a parents perspective of the school during 4 meetings in the school year. If you would like more information please see Miss Caine.
