

## Home Learning Challenge!

In maths this week we have been comparing size and talking about how things are bigger, smaller and the same size.

Use this bear and go on a hunt around your house or whilst out and about. Your child needs to find an object that is smaller than the bear and bigger than the bear. As a challenge, can they find something that is the same size as the bear?

**Upload a photo or video to Tapestry by Monday 16<sup>th</sup> October.**

Encourage your child to talk about what they have found in full sentences, such as:

“The tree is bigger than my bear.”

“The lego block is smaller than my bear.”

“My teddy is the same size as the bear.”

If you need any help accessing or logging onto Tapestry, please see Miss Jackson.
